Amy:

Could you tell Mark that you are in agreement with the Program that action at the site needs to be taken quickly in order to prevent likely exposures to the surrounding populations due to deteriorating conditions at the site and that the development time necessary to identify and notice PRPs will not be timely enough for the urgency of this action. That way he may be able to cover for you while you are out.

Thanks

I will take a look at the action memo early next week, but I'm on travel Wed-Fri next week.

Subject: CES Draft Action Memo

Bob/Amy:

This is a draft action memo. We are hoping to get verbal approval when we ask but I have crafted this already and I would like you guys to take a look at it and give me some feedback. Also, Managers are talking about briefing up on the site next Thursday. I will let you know.

Thanks
